SECTION 4: First-aid measures	
4.1. Description of first aid measures	
-	Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation:First-aid measures after skin contact:	Allow affected person to breathe fresh air. Allow the victim to rest. Gently wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse.
First-aid measures after eye contact :	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.
4.2. Most important symptoms and effects (ad	
symptoms Symptoms/effects after inhalation :	Dust when sawing or tear out. Danger of serious damage to health by prolonged exposure through inhalation. After drying or heating. Dust when sawing or tear out. Danger of serious damage to health by prolonged exposure through inhalation. May cause cancer by inhalation.
Symptoms/effects after skin contact : Symptoms/effects after eye contact :	Causes skin irritation. Causes serious eye irritation.
4.3. Immediate medical attention and special	treatment, if necessary
No additional information available	
SECTION 5: Fire-fighting measures	
5.1. Suitable (and unsuitable) extinguishing n	nedia
Suitable extinguishing media : Unsuitable extinguishing media :	Use extinguishing media appropriate for surrounding fire. No unsuitable extinguishing media known.
5.2. Specific hazards arising from the chemic	
Explosion hazard :	Not flammable. Prolonged exposure to fire may cause containers to rupture/explode.
5.3. Special protective equipment and precau	
	Fight fire with normal precautions from a reasonable distance. Do not allow run-off from fire fighting to enter drains or water courses.
	Do not enter fire area without proper protective equipment, including respiratory protection.
SECTION 6: Accidental release measures	
6.1. Personal precautions, protective equipme	ent and emergency procedures
6.1.1. For non-emergency personnel Emergency procedures : 6.1.2. For emergency responders	If spilled, may cause the floor to be slippery.
Protective equipment :	Equip cleanup crew with proper protection. Stop release.
6.2. Environmental precautions	
Prevent entry to sewers and public waters. Notify author	
6.3. Methods and material for containment an	
For containment : Methods for cleaning up :	Plug the leak, cut off the supply. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage.
6.4. Reference to other sections	
See Heading 8. Exposure controls and personal protect	tion.
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling : Hygiene measures :	Avoid contact with eyes. Avoid contact with skin. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.
7.2. Conditions for safe storage, including an	y incompatibilities
Storage conditions : Incompatible products :	Store in original container. Keep container closed when not in use. Strong bases. Avoid contact with materials: such as sulfides and sulfites which could release toxic gases, mixing with strong bases because high heat of reaction can generate steam, and metals which could liberate hydrogen, a flammable gas.
SECTION 8: Exposure controls/personal	protection
